GIRAFFES, TIGERS & SPIDER MONKEYS MOVING IN NEXT YEAR!

- Giraffes have the same amount of bones in their neck as humans — just 7!
- Giraffe tongues are dark blue or purple and can be up to 20 inches long!
- When spider monkeys meet, they hug each other to say hello!
- The oldest fossil remains of tigers are believed to be 2 million years old!
- Tigers are the largest wild cats in the world. Adults can weigh up to 800 pounds!
- Spider monkeys have a long prehensile tail that they use as fifth limb to swing from tree to tree.
- Spider monkeys live in groups, called troops, of over 30 monkeys.
- A giraffe’s feet are 12 inches wide — as big as a dinner plate!
- A tiger’s roar can be heard from nearly 2 miles away!
- Spider monkeys have a long prehensile tail that they use as fifth limb to swing from tree to tree.
- Tigers can leap up to 32 feet in a single bound!
- Unlike many primates, spider monkeys do not have thumbs.

ZOO HOURS
10 a.m. to 5 p.m. daily (March 8 – October 16)

WILD WEDNESDAY
Open late 'til 8 p.m. Wednesdays in June, July & August

The Species Survival Plan symbol identifies selected species that we are making a special effort to save, through various activities, in cooperation with the Association of Zoos and Aquariums.
